

CAR-FREE AND SAFE ARRÁBIDA

2023 BATHING SEASON
3 JUNE TO 17 SEPTEMBER

The “CAR-FREE AND SAFE ARRÁBIDA” programme, developed by Setúbal City Council, aims to ensure safe and sustainable accessibility to the municipality’s bathing areas, located in the Arrábida Natural Park.

Each year, over 350,000 people visit the beaches of Arrábida, and the safety of those people comes first.

The strategy includes the improvement of traffic conditions, by investing in public and soft modes of transportation and limiting the use of individual transportation, as well as a fight against irregular parking.

This year, for safety reasons due to the presence of a rock mass in danger of falling, the Figueirinha-Creiro section is off-limits, and the beaches of Galapos and Galapinhos cannot be reached through Figueirinha. The only possible access is via Creiro and from here, can only be reached on foot or by using the services of authorised vehicles.
