

ARRÁBIDA O2

2024 BATHING SEASON
1 JUNE TO 15 SEPTEMBER

Safety and sustainability are aligned in the Setúbal City Council's new strategy for access to Arrábida's beaches – 'Arrábida O2, Arrábida without Cars.'

In addition to the necessary traffic and parking restrictions, there will be an increase in bus frequency, as well as other initiatives aimed at protecting the natural heritage in 2024.

The new mobility and access model for Arrábida's beaches highlights environmental preservation and sustainability and will be in force during the bathing season, from 1 June to 15 September.

This safe and sustainable mobility plan plays a central role in issues related to environmental sustainability and the safety and security of natural heritage and of people and property. The prevention of risks, particularly those associated with aid and rescue and the prevention of rural and forest fires, along with the favouring of public transport and soft mobility over private transportation are also part of this strategy.

As in 2023, the section between the Figueirinha and Galapos beaches is still completely closed, and it is not possible to access the Galapos and Galapinhos beaches via Figueirinha. The only possible access is via Creiro, from where you can go by foot or via the Creiro - Galapos circular transport, provided free of charge by the Setúbal City Council.

REQUESTS FOR ACCESS TO RESTRICTED SECTIONS
